SUMMARY

I believe that nature is the best teacher. As an educator at a nature school, my role is not merely to teach within a classroom, but to be a facilitator who accompanies students as they explore the universe. My focus lies in developing character (akhlak), scientific logic through nature observation, and leadership through outdoor activities. My ultimate goal is to nurture a generation that is independent, resilient, and deeply committed to environmental sustainability.

WORK EXPERIENCE

Teacher and Educational Facilitator - Depok, West Java

Feb 2025 - Present

Sekolah Alam Al Fazza

- Responsible for implementing the four pillars of Sekolah Alam curriculum : Akhlak, Logic, Leadership and Entrepreneurship.
- Designing a spider web curriculum that integrates various subjects (Math, Science, Language) into a single nature-based theme.
- Designing experiential 'learning by doing' curricula that utilize the natural environment as a living laboratory to strengthen students' conceptual understanding.
- Maintaining an indoor or outdoor learning space (saung) that is clean, organized and conducive to focus without the traditional desk and chair setup.
- Keep detailed observation logs on each child's behavioral and cognitive development.
- Leading students in outdoor treks, gardening, or animal husbandry while ensuring strict safety protocols are followed.
- Engaging in frequent "Parent-Teacher" dialogues to ensure the character building started at school is reinforced at home.
